

The PBX Push Brush is a heavy duty push brush fitted with quick hitch mounting to suit any machine – including forks, pin and cone, Q fit and excavator couplers. Steel box section construction makes it the toughest brush on the market. A choice of three sweeping widths makes the PBX Push Brush ideal for a variety of heavy duty construction, farmyard and recycling centre sweeping tasks. With a low-dust creation design, no moving parts and quick-change bristles the PBX Push Brush is also easy to clean.

### Features

- Heavy duty steel box section construction.
- Push brush - no moving parts.
- Quick mounting to fork or '3 point linkage'.
